LIONMAKER MEDICAL

VA HEALTH OPERATIONS APPLICATIONS | A PRACTICE OF LIONMAKER CONSULTING, LLC

COMPANY OVERVIEW

Health operations applications for the Department of Veterans Affairs: referral, scheduling and intake tools, case routing, staff workflow automation and operating dashboards, designed to work alongside existing VA systems. Lionmaker Medical is the health operations practice of Lionmaker Consulting, LLC, an SBA-certified Service-Disabled Veteran-Owned Small Business owned by a service-disabled U.S. Army Iraq War veteran.

SBA SDVOSB

CORE COMPETENCIES

- **Patient access and scheduling applications.** Referral intake, appointment request, check-in and wait-list tools for Veterans and staff, on web and mobile, designed to meet Section 508 accessibility requirements.
- **Case routing and workflow automation.** Queues, notices and assistants that move consults, referrals and administrative requests through defined steps, with staff approving what matters.
- **Operations data and dashboards.** Integrations between existing systems, backlog and wait-time dashboards, and recurring management reporting.

Scope: administrative and operational applications. Designed to work alongside clinical systems of record through approved interfaces, not to replace them. **Health information:** we sign a Business Associate Agreement before any work that touches protected health information.

DIFFERENTIATORS

- SBA-certified SDVOSB, eligible for consideration for VA Veterans First set-aside and sole-source awards under 38 U.S.C. 8127, subject to applicable requirements.
- Available as a first-tier similarly situated subcontractor on SDVOSB awards when small under the prime-assigned subcontract NAICS code.

COMPARABLE COMMERCIAL PROJECTS
